

NDIS Accessing Allied Health Services

The following information will guide you through our allied health service access process as a NDIS recipient.

These are the steps you need to take to continue accessing our services under the NDIS:

1. Meet with the Local Area Coordinator (LAC) or NDIA planner to create your NDIS plan. You will receive a copy of your plan via mail or email.
2. Contact our Service Access Team as soon as possible to arrange your supports and create a Service Agreement. You can email your plan to serviceaccess@glch.org.au or contact them on **5155 8367**.

Please let our Service Access Team know when your next scheduled appointment is. The Service Access team must have this information to ensure your Service Agreement is created on time and won't affect your access to our services.

3. Sign and return your Service Agreement to our Service Access Team so they can get your services in place.

Services will then commence or re-commence.

Why GLCH

- ✓ We have more than 48 years of **local** health experience
- ✓ We provide high quality, accessible services that support people in our communities to **live well**
- ✓ We have staff with the expertise and knowledge to help you achieve your goals
