

NDIS Plan Management

During your NDIS planning meeting, you'll be asked how you'd like your plan to be managed. If you're not sure what the different options mean, you're certainly not alone. The good news is that choosing how to manage your NDIS funding doesn't have to be complicated. Understanding your options can help you find the approach that works best for you and your goals.

Contact our Service Access Team as soon as possible to arrange your supports and create a Service Agreement. You can email your plan to serviceaccess@glch.org.au or contact them on 5155 8367.

Please let our Service Access Team know when your next scheduled appointment is. The Service Access team must have this information to ensure your Service Agreement is created on time and won't affect your access to our services.

When you choose us as your Plan Manager, you get the best of both worlds: the freedom to choose the supports and providers that suit you, along with a trusted partner to help manage the paperwork and payments.

We'll pay your providers, process invoices and claim funds from the NDIA on your behalf, making it easier to keep track of your budget.

Best of all, our Plan Management service is funded by the NDIS, so there is no cost to you and it doesn't come out of your existing support budget.

Our goal is simple: to take the stress out of managing your plan, so you can spend more time focusing on your goals and the things that matter most to you.
