

# NDIS: Support Coordination

If your NDIS plan includes Support Coordination, we're here to help.

Our Support Coordinators can help you understand your plan, connect with providers and make the most of the supports available to you. They'll work alongside you to explore your options and choose the services that best meet your needs and goals.

They can also help you manage your funding across different supports, coordinate service agreements and build the skills and confidence to navigate the NDIS independently.

**Our support coordinators can also help you:**

- Achieve your plan's goals
- Get value for money from your plan
- Provide reports to NDIS on outcomes prior to review
- Prepare for NDIS reviews

**Other services provided by GLCH under the NDIS:**

- Assisted Daily Living Services
- Complete Therapies
- Paediatric Therapy Groups
- Plan Management
- Social Support Groups

**Did you know you can access an NDIS Psychosocial Recovery Coach?**

A Recovery Coach is an NDIS-funded worker with mental health experience who can help you understand and use your NDIS plan, connect with services and supports, and work towards your recovery goals.

Ask your Local Area Coordinator or NDIA planner to send a referral to [NDIS@glch.org.au](mailto:NDIS@glch.org.au) for Recovery Coach or Support Coordination services. GLCH NDIS Registration Number: 4050008524
